

# The Future of Farming is Here

 LIMBACH · WEDNESDAY, JUNE 14, 2017

With nine operational vertical farms, AeroFarms has scrapped tried-and-true farming methods in favor of a 21st century approach. Limbach is proud to have assisted in the engineering design and mechanical installation of such innovative technology. Accolades and buzz for this transformative business continue to roll in: Aerofarms was recently labeled one of the [Top 25 Most Disruptive Companies of the Year by Inc.](#), while the Food network proclaimed that “the future of farming is here” in this [short video clip](#).
